GLEICHEN, ALBERTA, WEDNESDAY, AUGUST 26, 1931

SUBSCRIPTION \$2.00 PER YEAR

NOTE SIGNERS DECIDE TO HAND HALL OVER TO TOWN

The meeting of the note signers of the Gleichen Community Hall took place last Friday evening in the Club room of the Hall.

The following note signers were present: Messrs. R. A. Brown, T. W. Bates, Jr., N. T. Purcell, W. F. Ferguson, C. W. Harrison, R. McQueen, A. R. Yates, G. Evans, Menard, Dafeo Boyd, Farquharson.

Mr. A. F. MacCallum as past president of the Association outlined the purpose of the meeting and gave a detail explanation of the affairs of the Community Hall. He said he thought that it was the wish of most of the original note signers and citizens of the town that the town council from now on handle the affairs of the Community Hall. The meeting was declared open for business it was moved by Mr. Boyd and seconded by Mr. Bates that Mr. R. S. McQueen act as chairman and Mr. S. E. Dafeo as secretary of the meeting. Carried.

Mr. Boyd, upon request, read the rules and regulations governing the Association. He then stated what he thought was the proper procedure in winding up the affairs of the Association. It was then moved by Dr. Farquharson and seconded by Mr. Purcell that the Town Council be asked to take over the management and all assets of the Hall and to assume responsibility for all its liabilities and at some length, the motion was put and carried unanimously.

It was moved by Mr. Boyd and seconded by Mr. Ferguson that the town secretary have a notice inserted in the Gleichen Call requesting that all accounts owing by the Association be turned in to the Town Office on or before the 5th of September, 1931.

Mr. Yates assured the meeting that Mr. Murray would make a proper audit of the books of the Association. It was moved by Mr. Boyd and seconded by Mr. Menard that a committee of two be appointed to act with Mr. Purcell to carry on the affairs of the hall until such time as the Town took over the management. Dr. Farquharson and Mr. Boyd were the two members appointed on motion of Purcell and Brown.

Before the hall will be taken over by the town it will be necessary that the ratepayers send in a certified petition, signifying their approval for the town to do so. There is a petition in circulation now and all who are in favor of the town taking over the hall should sign it at once. The petition will be found in the Gleichen Pharmacy.

INTERESTING NEWS ITEMS OF MILO HAPPENINGS

A largely attended Wheat Pool meeting was held last week in the Odd Fellows Hall, Milo, and Mr. Strong of Claresholme was the principal speaker. The East Milo Junior U.F.A.'s held a dance after the meeting.

At a large gathering of old settlers and their wives Sunday afternoon August 16, at John Glambek's place it was decided to form a sort of an old settlers association, in the district of Milo, Queenstown and Majorville mostly for the purpose of having an annual coming together, taking the form of a picnic at some suitable place. A committee composed of Mrs. E. Beckner, Wm. Mallett and J. Glambek were elected to arrange for next year's meet.

An agitation has been going on lately to have the Indian mines run on a more business like fashion this winter, so people throughout the districts adjacent to the mines, could get there coal at a much cheaper price than it would cost to have it shipped in. Mr. W. Oaler was recently elected a committee to interview Mr. Gooderham, the Indian agent at Gleichen, on this subject. Mr. Gooderham told Mr. Oaler that he had already taken this matter under consideration and stated that two mines would be opened at the colesse an

tracks laid to the top of the bank where a loading platform would be built so it would be easier to load Fifty Indians were to be put to work mining and a white man with mining experience made over of the mines. There is also a possibility that the price may be reduced, and in view of present depression and low price of old farm products three dollars per ton should be sufficient for a ton of coal.

Harvest, such as it is, has been going on since August 12th and most of the wheat was ready for the binder by the 15th. But as most of the grain will be cut with the combine: it took longer to get started as the grain must be good and ripe for straight combining. A new method to bunch some of the straw is being tried out this year, this, I understand is only possible where the grain is being swathed first.

The sad death on Saturday night August 22nd of Floy Van Orsdall came as a shock to this community. The funeral took place in Calgary, Tuesday, August 25th, and was attended by many friends from this district and beautified by a profusion of floral sprays and wreaths.

Miss Van Orsdall had been suffering for some time past from a complaint that baffled doctors, but it was not thought to be so serious a nature. She was a most popular young woman of a nature deservedly so, and her passing is a matter for sorrow to many others as well as her parents and immediate relatives. She was the only daughter and only child of Mr. and Mrs. M. Van Orsdall, for many years resident near Queenstown. She passed away at the age of 21 years, while in the glamorous bloom of youth, the years of enthusiasm, while the high hopes that youth builds were as yet unshaken by the harshness of life. The deep sympathy of all their friends goes out to the parents as swiftly, bereft, and we can only hope that, mingled with the crushing pain of their loss, will be also a measure of gladness that they have had a sunny disposition to gladden their during the short years of her life.

HARVEST SEASON WELL UNDER WAY

Wheat cutting is in progress at many points throughout the Province and will be general by the middle of next week according to telegraphic reports. South and southeast of Calgary and in the Peace River district crops are more advanced and more cutting has been done than in the north-central and northern areas. The warm weather of the past ten days has been ideal for hastening maturity, but a continuation of this weather is necessary, particularly where wind damage and dry conditions of the past spring caused late germination. Hall damage has been reported at a number of points during the past fortnight and damage from this cause is considerable. Frost has occurred in the Peace River district only. The extent of damage is not fully known but it is not likely to be serious. Losses as a result of rust and other plant diseases are very light.

Conditions remain unchanged in the east-central and south-eastern area. Shortage of pasture and water for stock constitutes a serious problem in some districts. Fortunately feed is very abundant over the greater part of the Province and there will be an adequate supply. Much of the partially hauled crop is being cut for feed. Haying has been carried on under favorable conditions in the irrigated districts, and the second cutting of alfalfa is now in the stack. In those areas where rain has been frequent occurrence, progress has been slow and much of the hay has deteriorated in quality. Sugar beet yields will be lower than those of last year, but may be said to be fairly satisfactory.

The season is fast approaching when the common house fly becomes a real scourge and a dangerous enemy to public health, citizens may well pay a little more attention to the methods they adopt for disposing of garbage

GLEICHEN SOFTBALL TOURNAMENT TO BE GREAT EVENT

Preparation for softball tournament to be held in Gleichen a week from Monday, Labor Day is proceeding apace.

President Michael is at this writing in the Province of Saskatchewan. He heard that there were some new wrinkles in softball tournaments in Saskatchewan so went down there to get some and fetch them back.

The executives will hold another meeting one of these nights when the final plans for the tournament and dance will be figured out. Stobart, Namaka and Meadowbrook will be the outside teams compete and with seven teams entered it is hoped to give the spectators plenty of softball.

The dance in the evening in the Community Hall will be a big event to which all are invited to attend.

WHAT SOFTBALL CLUBS ARE DOING

The Van Winkles and the Legior boys played again last night. The Legion carried off the honors. A good crowd attended and had barrels of fun watching the Van Winkles in action.

Re Monday nights softball game between Roughriders and Maple Leafs. The members of the Maple Leafs wish to apologise to the umpires especially Rev. Mr. Gilbert, our opponents and spectators for being the cause of rowdiness and abusive language used at this game.

Signed JACK LESTER, Manager Maple Leafs.

The softball league results up to Monday night were: Roughriders have won 6 games and lost none.

Maple Leafs have won 3 and lost 3. 22nd Battery have won 2 and lost 1 and have one game to play with the Legion tonight thus finishing up the season. If the Battery win they will play the Maple Leafs Thursday evening a sudden death game to see which team will play the Roughriders for the Gleichen world's championship at Michael Trophy.

While hurrying to the softball park to take part in the game Friday night two cars driven by Bert James and Frank Bates tangled up at the corner of Fifth Avenue and Chisholm Street. No one was hurt but the cars had bodies and fenders bent. This is the second collision that has taken place this year at this corner.

Sergt. Tomlinson has a warrant out for the arrest of Bob Brown for stealing too many bases from the Legion. We agree with the sergeant for the boy can steal more bases than any body we ever heard of.

The Roughriders defeated Meadowbrook on the Gleichen diamond last Thursday evening.

There was a softball game in Gleichen every evening last week except Saturday.

The Roughriders met their first defeat last Sunday afternoon in the hands of Meadowbrook boys headed by Neil McMillan. Errors on the part of the Roughriders and Neil's pitching did the trick. If you want to feel foolish just try to hit one of Neil's slow balls. After you have fanned three times you will feel ridiculous. So ridiculous will you feel you will say there "ain't no" word that describes the feeling. The score was 9-5.

There is nothing like the good old days so thinks the Gleichen softballers. Many of the boys will feel sure they were born many years too late when they read this. On January 2nd, 1881, Alexander McGibbon, of Montreal advertised a holiday case of six dollars comprising the following: two

WOLF CUBS SPEND JOLLY DAY AT RIVER

The Gleichen Wolf Cubs held their first picnic at the old swimming hole on Saturday the 18th, August, all the cubs who were home from their holidays turned out. Those present: Ross Clevee, Leslie Menard, Herbie Guttman, Kenneth Boyd, Elliot Evans, Jack Robinson, Colin Bubby, Ronnie Halstead, Teddie Eglesse, with Bobbie and Albert Riddell as visitors. The Cubmaster and Mr. Halstead took the boys down in their cars.

After the usual opening with the cub's howl sides were picked for football and an exciting game ended with Ted Eglesse' team winning by the small score of 1-0.

The cubmaster showed the pack how to revive a man who had been partially drowned and each cub had to learn how to place the victim and how to pump any water from his lungs. Then everybody went in for a swim. This was followed by a softball game played in moist bathing suits. The ball game was so strenuous the score being 14-14 that the cubs again resorted to the pool. Here Cub Bubby gave an excellent exhibition of the high dive.

The pack by this time was so hungry that supper had to be put on at once and the writer modestly declined to tell who ate the most sandwich but it was a very close match. The pack got home about 7 o'clock tired but happy. The boys wish to thank Mr. Boyd and Mr. Halstead for the jolly afternoon.

TOWN AND DISTRICT

Miss Ann Reilly of Cluny, was a week-end guest of Miss Madeline Stubbs.

Art McDonald is spending a lot of his time painting Jack Moss' residence. Jack will have a fine looking home when the work is finished.

Arrowwood now has a weekly newspaper entitled the Bow Valley Resource the first copy of which arrived in this office this morning. It is a bright newsy sheet and thoroughly covers Arrowwood and district. We welcome this new paper to the fold and wish it every success. It is edited by Norman G. Cary.

School opens next Tuesday and parents of high school students who live outside of the Gleichen School District should not forget the high school tuition fees which is \$70 for the term. Students must pay \$20 before school opens Tuesday and \$20 before school opens January 2nd, 1932. These amounts must be paid before the pupils take his or her seat. The school district from which the pupil come is responsible for the balance namely \$50.

The Church schools of Gleichen and Cluny United Churches held a union picnic on the afternoon of Tuesday Aug. 18. The grounds south of Cluny were particularly suitable for such a gathering and there must have been at least two hundred present. The program included the usual races: swimming and softball games. There was plenty of good food nicely prepared and loads of homemade ice cream. Every one appeared to have a real good time and other than a couple of lads who ate too much and some men who were stiff next morning after too much baseball, there were no other casualties.

COMING EVENTS

Sept. 5—Auction Sale of Livestock machinery and household effects at Mrs. L. E. Sutton's farm by T. H. Beach.

Sept. 7—Softball tournament at Gleichen.

Sept. 7—Dance in Community Hall.

bottles Table Sherry, Two bottles Port One bottle Brandy, One bottle Scotch Whiskey, One bottle Old Rye, One bottle Ginger Wine, One bottle Gin One bottle Old Tom Gin. When Pres Michael presents the cup to the winning team wouldn't he be delighted to have the above assortment on hand

BURRS

I have been wondering if any of the old-timers of the district know anything of Sandy McNabb who used to ride for the Bar U many years ago. Perhaps some remember the time when shipping from Brooks he had been enjoying the comforts of the time and while feeding his bronc he carelessly dropped a dime in the feed-box. A frantic search failed to recover the missing money and Sandy rode back wards all the next two days.

I don't see him at the Old Folks home so he is either dead or enjoying a well-earned old age pension.

Although many people have strong views on relief yet at this time the people who used to orate against pensions for the aged poor are now having a significant change of view. All the few dollars given monthly to an old couple who have weathered life's storms, seen their children safely launched on the sea of life is merely an acknowledgement of life's duties faithfully accomplished. They have borne their share of the financial burden of the country until age curtailed their earning powers; they have in a more restricted sphere done their duty just as faithfully as the general or politician who have committed mistakes for which someone else takes the blame and at the more less successful end of their active career are rewarded by their grateful country with a competence for their declining years. Very few people to-day are so successful as to lay by a competence for declining years unless it is by steering close to the border line that separates what is legal from what is not. Two things will soon become recognized as the responsibility of the State—the care of child-life and the care of the old people.

A certain city in Eastern Canada is renowned for the low opinion it has of our neighbors to the south. One of these had occasion to undergo an operation in the hospital and on recovering from the effects of the ether noticed that all the blinds were down. On enquiring the reason from the attendant he received the reassuring answer that he was all right but as the building next door was in flames they had pulled down the blinds lest he should think the operation had been unsuccessful.

With reference to a note in last week's "Call" it would seem the gentleman who wrote up to Edmonton relative to the appointment of a local police magistrate and objecting on the score of expense is not familiar with the facts of such appointments. There is no salary attached, the only remuneration being obtained from the legal costs of each case. There are already four Justices of Peace in Gleichen, and these men have power and ability to handle any case that a magistrate can handle except small debts cases. The Small Debts Court, presided over by a magistrate has not been as serviceable as was hoped proving to be costly and cumbersome. That is the real reason why the department is content to let matters stand for the time.

The wholesale destruction of the miles of standing timbers by fires this summer tends to make one think seriously of the effects of a continuation of this waste. Our resources of timber as of other things are limited in extent. Already experts tell us that the end of certain kinds of timber is in sight. Are we to follow the path of the United States in a continued dissipation of our resources, with the consequent loss of the attendant benefits of water, game, beauty, humidity and increase of periodic floods and pestilences. Mesopotamia, China, Palestine are all examples of what happens to countries in which denudation of forests takes place.

They were not so slow a hundred years ago after all. In 1811 Sir John Throckmorton won a bet of five thousand dollars that he would sit down to dinner in a suit the wool of which was on the sheep's backs at five o'clock

RED & WHITE STORE

SPECIAL SHOPPING SUGGESTIONS FOR Friday and Saturday

TRUE MERIT

Only the very finest quality ingredients are used in the blending of this now famous beverage. Only the very finest could create a pure refreshing flavor of such true merit.

CALGARY DRY GINGER ALE

Calgary
Brewing and
Malting Co., Ltd.

In the morning. At that time the sheep were sheared, the cloth was finished in the afternoon, and at half past six Sir John appeared before a crowd wearing the suit. The sheep that provided it were roasted whole and the crowd washed them down in 120 gallons of free beer. A month ago this record was smashed in Crowther and Co's mills at Huddersfield.

From the shearing of the sheep to the wearing of a finished suit the total time was 2 hours 9 minutes and 46 seconds.

The weeks query—"If it takes two sheep to supply the wool for pairs of plus fours how many ladies' bath-suits can be made from the wool of an angora rabbit?"

BROOMTAIL

WORLD HAPPENINGS
BRIEFLY TOLD

More than 26,000 bicycles were manufactured in Canada during the year 1930.

Establishment of an experimental farm near Fort William is planned by the Ontario Department of Agriculture.

After years of private ownership one of Britain's most beautiful parks, the Royal Botanical Gardens, is to become public property.

General Cyrulque Cyprien Gillian, head of the Belgian headquarters staff of the Yser during the world war, is dead, aged 74.

Four bushels of oats were "swapped" by a farmer at Tiffin, Ohio, for a shave and haircut, worth 75 cents. The farmer still owes the barber three cents.

Seven new aeroplanes built in Russia with funds obtained by public subscription are to be added to the Soviet Air Force, the war commissariat has announced.

The autumn manoeuvres of the Austrian army have been cancelled for this year in the interest of economy, it was announced in an official communique issued recently.

F. C. Hall, backer of the Post-Gazette record flight around the globe, says he is studying navigation and plans to fly the Pacific westward next year. A pilot, Hall said, has not been selected.

Fifty-five million acres had been sown to spring wheat in Russia up to June 1, according to reports received by the British Ministry of Agriculture. Operations are reported to be backward in Siberia.

James Bires, 27, of Valois, a suburb of Montreal, better known as Jimmy Britt, one-time flyweight boxing champion of Canada, was killed on the Quebec highway near the capital, when his automobile swerved from the road and turned over in a ditch.

Figures received in Saskatchewan from an authoritative source, indicate that the official 1931 census return will give the city's population as about 42,000, an increase of 67 per cent. over the 1921 census, and 38 per cent. over the total given in the prairie census of 1926.

Cancer Research

Commission Finds That Important Progress Has Been Made

"We found that the best results in cancer treatment were being obtained where surgical, X-ray and radium treatment were being combined, and we also found that remarkable steps have been made in cancer research," said Dr. W. T. Connell, who has just returned from Europe, where he was studying the cancer question with the Ontario cancer commission, appointed by the government of Ontario. A comprehensive survey of the cancer question and the treatments being used was made by the commission in both the United States and Europe.

"What the commission saw is most encouraging," said Dr. Connell. "We found from our investigations that where an organized movement was made to secure for the patient the three methods of treatment, surgical, X-ray and radium, the best results were secured, and the highest percentage of recoveries was recorded."

To Launch Jewish Organization

Formation of a National party is planned by Jewish organizations in Canada. An effort to blend Jewish social and political organizations into a party of national scope and influence will be launched at a mass meeting in Toronto this fall. Delegates from organizations in Montreal, Ottawa, Winnipeg and other Canadian cities are expected to attend.

There are more than 600 varieties of wild flowers and plants in Mount Rainier National Park.

One of the suburbs of Pittsburgh has a fire department entirely "manned" by women.

"I am going to suggest that we have a little statue in this park; for instance, a statue of love."
"In that case we need only put a seat."—Pages Gales, Yverdon.

Manitoba Unemployed

Over Half Of Those Out Of Work Are Living In Winnipeg

Unemployed persons in Manitoba total 40,817, according to a careful survey of the province that has just been concluded by the provincial government with the aid of city, municipal, town and village authorities.

It is estimated that including dependents of unemployed the number of persons in the province without means of support is 105,000.

This information was obtained at the request of the Dominion government which wanted to know the number of unemployed and their location before allocating funds for relief projects. It does not include farmers who have suffered crop failures.

Hon. W. R. Clubb, Director of Unemployment relief, has sent full details on the situation to Hon. Gideon Robertson, Federal Minister of Labour.

The total of unemployed for Winnipeg and its suburbs was found to be 20,767, an increase of 2,767 over the number of unemployed in June of this year.

Arthur MacNamara, assistant director of unemployment relief, estimated that the normal number of employed in a population of 270,000 in Winnipeg and suburbs is 70,000. Of that number over 20,000 now are out of work.

The total number of persons in Greater Winnipeg, including unemployed and their dependents, without means of livelihood is estimated to be 50,000 at the present time.

The other figures on unemployed sent to Ottawa show a total of 2,486 unemployed for St. Boniface, Brandon and Portage la Prairie; 4,033 for the towns and villages of the province, and 13,331 for the rural municipalities.

Figures on unemployed were sent to the provincial government by the secretary-treasurer of each city, town, village and municipality in the province.—Manitoba Free Press.

Recipes For This Week

(By Betty Barclay)

CABBAGE SALAD UNIQUE

½ small cabbage, shredded.
½ pimento, chopped.
1 cup home made style pickles, chopped.
½ to ¾ cup mayonnaise or cooked salad dressing.

Mix lightly together cabbage, pimento, and pickles. Add enough mayonnaise to moisten the mixture. Serve cold.

COCOANUT TUMBLE

3 bananas, diced.
Juice 1 orange.
Juice 1 lemon.
½ can cocoanut, southern style.
4 tablespoons sugar.
Combine ingredients. Pile in sherbet glasses. Chill. Serves 4.

PEACHES MARGUERITE

4 dates, finely chopped.
¼ cup pecans, finely chopped.
¼ cup cocoanut, southern style, finely chopped.
1 tablespoon cream.
2 teaspoons lemon juice.
6 halves canned peaches.
1 cup peach juice.

Combine dates, pecans, cocoanut, and cream, mixing thoroughly. Add 1 teaspoon lemon juice. Shape into small balls and place in cavities of peach halves. Serve with peach juice to which remaining lemon juice has been added. Serves 6.

Strange Cave Dwellers

People In Tunis Live Underground To Escape Heat

Tunisia has perhaps the strangest cave dwellers in the world. They are found south of Gabes on the fringe of the desert, and in their efforts to escape the heat they have dug dwellings for themselves in the sand.

The traveller crossing the plain of Matmata comes across what appear to be wells, and is surprised to hear sounds of talking and children's laughter coming up from the earth. Looking down, he discovers in the half light a small courtyard, and tunnelled from the bottom of the well-like cavity are complete dwellings.

Access to these underground dwellings is through a slowly descending tunnel, and when the habitation proper is reached it is found to be beautifully clean and cool. Down below the surface lives the whole family, and there are stables for their animals.

Young Poet—How do you like my poems?

Critic—Excellent. There are poems there that Shakespeare or Shelley could not have written.

Poet—It is kind of you to say so.

Critic—One is about the cinema and the other about wireless.

The Lumber Industry

Is Second Most Important Industry In Canada

A printed report on the lumber industry in Canada combining the complete figures for the calendar years 1928 and 1929 in one bulletin has just been issued by the Forest Products Branch of the Dominion Bureau of Statistics. Preliminary reports covering the separate years have already been issued in mimeograph form but the present report includes considerable additional information and more detailed statistics.

The manufacture of sawn lumber and other sawmill products is the second most important industry in Canada depending on the forests for its raw material. It is carried on by over 2,800 establishments employing over \$181,000,000 in capital, giving work to over forty-six thousand employees, distributing over \$38,000,000 in wages and salaries and producing lumber, lath, shingles and other products valued at more than \$146,000,000. Increases were recorded in all these items from 1928 to 1929. The total cut of sawn lumber increased from 4,337,000,000 feet to 4,742,000,000 feet.

The report is bilingual and includes a general description of the different phases of the industry and its relation to other forms of industrial activity in Canada together with considerable historical information as well as the current statistics. It also includes a list of the more important lumber manufacturers in Canada classified according to their output and the province in which they operate. A list of the publications of the Forest Products Branch and of the Census of Industry as a whole is also printed on the inside covers.

The report may be secured on application to the Dominion Statistician, Ottawa.

To Develop Northern Ontario For Farmers

Government Will Provide Best Seed And Cattle At Low Prices

Agricultural development of northern Ontario will be launched immediately on a scale never before attempted, Hon. T. L. Kennedy, provincial member of agriculture, announces.

The north will be given a fresh start in farming with modern methods and scientific appliances and through elimination of inferior stock and low grade seed.

The Ontario Government will send in the best registered seed for distribution, to replace grades of grain discarded some years ago in the older section of Ontario; it will provide tuberculin-tested cattle at low prices to farmers; it will introduce scientific farming methods. Non-productive poultry and poor grade cattle are to be weeded out.

Perfect X-Ray Camera

Shuts Off Automatically When Right Exposure Is Obtained

A new X-ray camera which shuts off automatically when it has just the right exposure for a perfect picture, was described at New York by a group of United States radiologists returning from Europe.

They brought news of several X-ray developments. All returned as delegates from the Third International Congress of Radiology.

The camera has an X-ray backstop behind the picture. This backstop catches the rays after they have penetrated the film, and measures them by ionization in a partial vacuum. It is set so that when just enough rays have passed to make the film perfect, the backstop automatically switches off the electric current to the X-ray tube whereupon the exposure ceases.

Risky Methods Of Saving

Some People Prefer To Keep Money In Queer Places

Queer methods of saving money are revealed in the report of the British Inspection Committee of Trustee Savings Banks. As a result of house-to-house advertising three people were led to open accounts. In the first case life's savings amounting to \$2,000 were being carried daily in the pocket; in the second case a man and his wife kept their savings of \$6,500 in £1 notes and gold under a flagstone in their kitchen; in the third case, on the death of a wife, her husband found money, mostly silver, totalling \$2,750, hidden in various places about the house.

Buffalo Bill Honored

From all points of the compass some 40 people gathered in Buffalo to pay tribute to a man whose thrilling deeds were once the by-word of the land—Buffalo Bill Cody—greatest Indian fighter of them all. Buffalo Bill died in 1917 but each year members of his family gather to pay tribute to his memory.

May Use Grape Sugar

Government Consent To Use Of Grape Sugar For Native Wines

The Dominion Government has given its consent to the use of grape sugar instead of cane sugar for the spirit content of the native wine manufactured in Canada thereby according to the demands of the grape growers for the fortification of wine. The government has also agreed to wine standards, these to be recommended by the wine standards committee of the Ontario legislature and to be under federal control and enforcement.

New Experimental Farm

Establishment of an experimental farm near Fort William is planned by the provincial department of agriculture.

Policeman: "Hand over that sack and follow me to town."

Tramp: "If you want to carry it, very good, but I warn you that you won't get a tip."—Pages Gales, Yverdon.

Encouraging Report On Inspection Of Wheat

Grain Passed Through Department In Winnipeg Of Exceptionally High Quality

"Grain which has passed through the inspection department at Winnipeg is of exceptionally high quality. A considerable amount, has graded No. 1 Hard, a great deal has gone No. 1 Northern, and some has graded No. 2 Northern on account of mixtures of durum and barley, but this year's crop, as far as it has reached the inspection department is of an exceptionally high standard."

This was the statement made to officials of the World's Grain Exhibition and Conference by J. D. Fraser, chief grain inspector, Winnipeg, with reference to the quality of cars of the 1931 crop from western Canada, which have already passed through the inspection department at Winnipeg.

Mr. Fraser stated that the grain thus inspected had come from many different parts of the prairie provinces and indicated that the 1931 crop is of much higher quality than expected. Despite adverse conditions from spring seeding to harvest western Canada this year has produced, as far as present signs go, a quality of exceptionally high average.

This year's crop, therefore, was taken to indicate that many excellent samples of grain would be available for entry in the competitive classes of the World's Grain Exhibition and Conference to be held at Regina next year.

Death Of Toronto Publisher

Chas. Rlordon, Late President Of Toronto Mail & Empire, Dies In Montreal

Charles Rlordon, who built up the Rlordon pulp and paper mills and was president of the Toronto Daily Mail and its successor, the Mail and Empire, for 50 years, died at his home in Montreal recently, aged 84.

From 1863, when as a lad of 15 he joined his brother, John Rlordon, in building a paper mill at Merrittton, Ont., Mr. Rlordon was intimately connected with the pulp and paper industry of Canada until a few years ago, when his company was sold to the Canadian International Paper and Paper Company.

In 1877 he bought the Toronto Daily Mail, and Mr. Rlordon remained its president until its sale in 1927, a period of 50 years, during which time he was a strong supporter of the Conservative party and an important factor in the establishment of the national policy under Sir John Macdonald in 1878.

The Empire newspaper was bought in 1891, the two forming the Toronto Mail and Empire.

Banked Savings In Canada

Couple From United States Thought It Was Safer

A despatch from St. Thomas, Ontario, tells of a young couple from the United States who recently visited that city and who brought with them their entire savings and deposited it in one of the banks at St. Thomas. The young couple admitted quite frankly that they had lost some of their savings in one bank failure in Pontiac, Mich., and had grave fears for the balance of their nest egg—hence they had brought it to Canada.

While our Canadian banks perhaps have a lot to answer for, we in Canada perhaps do not appreciate them as much as we should during periods of depression. Over on the other side of the line the number of bank failures this year has been appalling and the heavy losses among private citizens has been staggering in many centres.

Here in Canada a bank failure is a very rare thing, and anyone placing savings in one of our chartered banks, Government savings offices or loan companies, is practically sure of the return of his money.

Old Resident Dead

Winnipeg's oldest resident, Mrs. Mary Roberts, 94, is dead. She had lived there for 87 years, going to Old Fort Garry when she said there were "hardly any white people there—just Indians and the Hudson's Bay folks." She was the mother of 13 children, one of whom fought in the Riel Rebellion.

Takes Up Chinese Singing

Chinese opera singing is the latest hobby of China's deposed emperor. The "Son of Heaven" has engaged a voice teacher from Peking, purchased Chinese musical instruments and stage trappings, and is practising the strange Oriental scales which Mei Lanfang has used with such skill that his fame has become world-wide.

Office Manager—I'm afraid you are ignoring our efficiency system, Jones. Jones—Perhaps so, sir, but somebody has got to get the work done.

Husband: "Confound it, you know trade is bad and money scarce and yet you bring home more mouths to feed."—From Passing Show, London.

Conceit and Bad Driving

Consideration For Rights Of Others More Important Than Keen Intelligence

Conceit is no crime, but it may have criminal consequences if a too complacent person takes the wheel of an automobile. This is the conclusion of Dr. Paul Schroder, state criminologist of Illinois. At a recent meeting of the Mid-West Safety Congress he asserted that conceited persons made bad automobile drivers, often acquiring records as "repeaters" in motor accidents.

His theory is that consideration for the rights of others on the highway is a more important factor in safe driving than keen intelligence. A kindly moron is apt to be a safer driver than the puffed-up individual who goes his own self-centred way, letting others look out for themselves.

A study of drivers who have landed in the Illinois state penitentiary on manslaughter charges revealed that most of them were not "handicapped mentally by low intelligence or physically by being crippled." Their prevailing defect was a tendency to be conceited and disregard the rights of others.

The commissioner of motor vehicles in Connecticut has already introduced a questionnaire for applicants for licenses, designed to show their character, intelligence and judgment. Perhaps he will now add questions to indicate whether or not they are conceited. The day may come when an "only child" or the "baby of the family" may be unable to secure a driver's license until he has brought character witnesses to testify that he is modest, unselfish and duly considerate of others.

Ways Of Englishmen

Country Estate and the Outdoor Life Has Strong Appeal

London's census figures, just completed, show that city to have a population of 8,202,818, as compared with New York's 6,981,917. This announcement, whatever despair it may cause in New York, will hardly cause a ripple in London, we imagine. For the truth is that Londoners differ strangely from most Americans in that they take very little pride in the size of their city. Most of them, if they were asked, would probably be able to give only the roughest approximation of its numbers.

Americans delight in the bigness of their towns, and most young Americans, at least, hope some day to go to New York and be a part of that bigness. Few Englishmen cherish a like ambition. Town, to a Britisher, is an unfortunate necessity. His heart is in the country.

Living on his own acres is still the good life to the average Englishman. The very richest of them keep houses in town, to be sure, but they are occupied only for a month or two in the summer. As soon as the "season" is over, they are closed up and their owners go back to their hunting, their shooting and their outdoor life.

Englishmen who are not so well off, who are forced by their business to go to town, live, as far as they can, in the suburbs around London. As soon as possible they desert their offices, rush by train or automobile to their villas, and their gardens, pretending that they, too, are country gentlemen.—Baltimore Sun.

Two psychologists who gave a test for color blindness to 375 dry goods salesmen found 27 were color blind.

When a man is too busy to be happy he is to be pitied.

Educational Films

Talkies Introduced To Students At Summer School

The "canned professor" has been introduced to the students of the summer school of Washington University in St. Louis. In a darkened hall, he appeared on the screen. With him were the charts used in his lecture. He pointed to them as he talked. Here was an educational talkie in literal sense. Given the "canned professor," the syndicated professor may follow. One man may appear simultaneously at 1,000 summer schools. The possibilities are limitless. For example, with the chain grocery store we may yet have the chain college, "canned professors" appearing on the silver sheet as they appeared before the camera at the central lecture room of the chain.—Boston Transcript.

Grower Receives Bounty

Tenant Farmer Will Receive the Full Five Cent Bonus

Farmers who grow wheat on land leased on a crop share basis will receive the Federal five-cent-bushel bonus on wheat in exactly the same manner as actual owner producers. Promise of this was contained in a letter received at Saskatoon by Dr. William Allen, of the farm management department at the university, from Hon. Robert Weir, Minister of Agriculture.

The Federal Minister of Agriculture was answering a query as to whether the tenant farmer would receive the full five cents or only a part of the bounty, with a share going towards the owner of the land. He said the government intended to make certain the actual grower received the bounty.

Increased Postage

United States Boosts Postage On Letters To Canada and Newfoundland

Increase of postage on letters to Canada and Newfoundland from two cents an ounce to three cents, and on postcards from one cent to two cents was announced at Washington by Second Assistant Postmaster-General W. Irving Glover, to become effective September 1.

At the same time air mail postage to Canada will be increased from five cents to six for the first ounce and ten cents for each additional ounce.

Would Extend Irrigation

Extension of irrigation works over 45,000 acres is sought by United Farmers of Alberta for the Purple Springs, Grassy Lake, Burdett and Bow Island districts of Alberta's south. The farmer body urges a conference of interested farmers, Canadian Pacific Railway officials and Dominion and provincial government representatives to inaugurate the scheme.

Youth: "Those fish belong to the ling family."

Fishermen: "They don't; they belong to me, and jolly hard work I had to catch them."—Buen Humor, Madrid.

Wheat Bonus To Be Distributed Direct To Growers Of Wheat

Winnipeg, Man.—Between \$6,000,000 and \$8,000,000 will be distributed directly to growers of wheat in the three prairie provinces as a result of the Federal Government bonus of five cents a bushel, according to an estimate made by E. B. Ramsay, chairman of the Board of Grain Commissioners, who Thursday, August 20, announced details of the bonus administration.

Forty members of the civil service eligible list, or former employees of the Department of the Interior, will be installed in an office here to check up bonus receipts with cash grain tickets throughout the west. The clerical office will be managed by the chief accountant of the Board of Grain Commissioners, with the auditors, to be appointed, assisting.

The bonus, Mr. Ramsay pointed out, "is for growing wheat—not for owning it. The man who grows the wheat gets the money whether he owns the grain or not, or regardless of whether he grows it for someone else." The only exception will be the man on the farm, who is paid wages in money, or partly in money and partly by share of the crop. Should he get wages entirely through crop-sharing, the bonus of five cents a bushel goes directly to him.

Regulations stipulate that "no person shall assign any claim to any bonus, and no person shall accept any such assignment. No person who is authorized by these regulations to issue a bonus certificate shall recognize or act upon any order or direction authorizing payment or delivery of the bonus certificate to any person other than the grower."

Arrangements have been made with elevator companies, track buyers, buyers, commission merchants and grain dealers to issue bonus certificates on "street" wheat or "graded storage" wheat, while wheat in car-load lots will be settled for after official inspection of the grain.

These bonus certificates must bear on the back the declaration of the grower that the wheat was grown in the year 1931, and in the provinces of Manitoba, Alberta or Saskatchewan. When this has been done the certificate can be taken to any chartered bank and turned into cash free of charge. No stamp duty will be levied on these vouchers.

A wrong declaration on grain delivered makes the grower liable to punishment under the criminal code.

Administration of the act covering the five-cent bonus is in the hands of the Board of Grain Commissioners for Canada, and E. B. Ramsay, chairman of the board, announces that he is negotiating for office space.

A staff of 40 will handle the work of issuing and checking certificates. Between two and three millions of these certificates will probably be required. It is expected two or three experienced grain men will be added to the staff.

Radium Ore Shipment

Twenty Tons In Transit From Great Bear Lake

Vancouver, B.C.—A special despatch to The Province from Fort Smith, N.W.T., says:

"First commercial shipment of radium ore from Great Bear Lake, where experts predict that Canada is making a bid for the radium supply of the world, has arrived here on its way to railhead at Waterways, Alberta. The shipment consists of 20 tons of picked ore and is estimated to be worth as high as \$8,000 a ton and is making its way south via the historic water route. Many transshipments are necessary to land the ore at railhead.

"All mining parties in the far north are preparing to fly out when winter closes the season. Only caretakers will be left on the locations. The companies are already looking ahead to next year. Large supplies of gasoline, oil and food are being cached at strategic points and will serve when planes carry men and machinery into the north in March next year. The scale of these preparations indicate that next year will see greatly increased activity."

Depends Upon Survey

Copenhagen, Denmark.—A future Arctic air route between America and Europe depends on a geographical and meteorological survey of Greenland, said members of the British East Greenland Expedition, who arrived from Scoresby Sound after 13 months on the Greenland icecap.

W. N. U. 1904

Ready For Test Shipment

All Facilities At Churchill In Readiness For Grain Boats

The Pas, Man.—Except for the final touches, Churchill today is ready to handle the 600,000 bushel test shipment of grain that will pass through The Pas starting September 4, C. S. Growski, chief engineer of the construction department of the Canadian National Railways, announced Wednesday, August 19, upon his return from an inspection at Churchill. The most modern elevator on the continent will find no difficulty in handling the grain, the C.N.R. executive declared. The 500 cars of grain will be unloaded from the tracks at the rate of one every two minutes. Three special locomotives will be brought in to aid in bringing the grain from here to the new bay port, 512 miles north of here. All the grain is being brought from the pool elevator at Saskatoon.

All grain will be stored in the 2,500,000 bushel elevator by September 15. The two tramp steamers will dock at Churchill between September 15 and September 20. There will be no other boat engaged in shipping the grain from Churchill.

All the docking facilities are not completed and only one boat can be loaded at a time, although the dockage provides for two ships. The bay line is in first class condition for the haul. Welsh coal is the principal cargo being brought into Churchill by the two tramp steamers engaged in the hauling.

Duties On Magazines

New Regulations Governing Revised Duties Are Announced

Ottawa, Ont.—Regulations governing the revised duties against foreign newspapers, magazines and periodicals entering Canada are issued by the Department of National Revenue. They will become effective September 1, except the 15 cent duty against week-end newspapers, which will not come into force until regularly proclaimed by the government.

It was set forth in the regulations that the higher duties will not become effective until April 1, 1932, against Canadians who had subscribed to foreign magazines or periodicals before June 2, 1931. This delayed action will mean seven months' grace to bona fide subscribers of the latter date.

The effect of the duties and the regulations was to segregate magazines and periodicals. Daily newspapers will continue to enter this country free of duty. Magazines with an advertising content ranging between 20 and 30 per cent. of the total space will pay a duty of two cents a copy. When the advertising content exceeds 30 per cent. the tariff will be five cents a copy.

Magazines in which the advertising content does not exceed 20 per cent. of the total space or those in the interests of religion, education, science, agricultural, labour or fraternal organizations, will bear no duty.

Will Greet Canadian Party At Churchill

Hobo "King" Appoints Himself Reception Committee Of One

Hudson Bay Junction.—Joseph Leon Cohen Lazarowitz, "King of the Hoboes," is on his way to Churchill to greet the Canadian Chamber of Commerce tour party there next month. He has appointed himself a special reception committee of one.

Lazarowitz passed through here on his way north. With him he is carrying a scrap book containing post office or railway stamps of the thousands of points he has visited in his 11 years on the road. The "King" also makes a point of calling on distinguished men and boasts that Premier R. B. Bennett once gave him a dollar.

Provinces Must Choose Route

Calgary, Alberta.—Replying to criticism connected with his interview in which he gave an outline of the trans-Canada highway proposed route Premier Bennett says: "It is entirely up to the various provinces to definitely set the route. The provinces must say 'how, when and where' and we will aid in the building," he concluded.

Nearly 10,000 cheeses from Australia were displayed in London recently.

Delegates Leave For Geneva

Canadian Representatives On Way To Attend League Meeting
Ottawa, Ont.—Headed by Hon. Hugh Guthrie, Minister of Justice, Canada's delegates to the 12th assembly of the League of Nations, meeting in Geneva, September 7, sailed August 19, from Montreal on the "Empress of Britain." With Mr. Guthrie will be Hon. Martin Burrell, Ottawa, Mrs. H. P. Plumtre, Toronto, and Senator C. P. Beaubien, Montreal.

Arriving at Cherbourg, the four delegates will be joined in Paris by Hon. Philippe Roy, Canadian Minister to France, who with Dr. W. A. Riddell, Canadian advisory officer accredited to the league at Geneva, complete the Canadian representation.

DEBT REVISION IS URGED BY BANKING GROUP

Basel, Switzerland.—After startling the world with a declaration advocating the revision of reparations and the revision of reparations and war debts, the Wiggins Committee of International Bankers waited expectantly to see what Great Britain, the United States and other great powers are going to do about it.

Backed by the prestige of the ten strongest banking groups in the world, the Wiggins investigators, in a report made public, declared that to bring full and immediate relief to Germany and other gravely distressed nations it will be essential to make a new deal in the schedules of international payments.

This eventuality, however, was frankly asserted to be bound up with the necessity of clearing up the political disputes of Germany and her neighbors.

After an examination of Germany's financial situation the bankers put the question up to the governments and called on them for action. Only action by the powers along these lines can restore economic prosperity to the troubled world, the financial experts stated.

Two immediate possibilities loom up. Will the governments, taking up the bankers' challenge, immediately summon a diplomatic conference to tackle reparations problems? or will they call on a banking commission—Mr. Wiggins or a new one—to advise them as to the next practical step?

The eyes of observers here are turned to Washington and to Paris to discover the diplomatic reaction to the bankers' proposal.

Participation by both these governments in any movement for revision is clearly indispensable, it is pointed out, since the United States is the receiver of debt payments and France the chief goal of reparations.

Taking Holiday Trip

Ottawa, Ont.—Hon. E. B. Ryckman, Minister of National Revenue, has sailed for Europe on the steamer, "Empress of Britain." Mr. Ryckman is taking a holiday trip which has nothing to do with the business of the department, it is stated.

SECRETARY FOR BIG CONFERENCE

Mr. J. R. Griffin, Organizing Secretary of the British Legion, London, England, who will be Secretary to the Conference of the British Empire Service League, to be held in Toronto, September 3rd to 7th.

Lloyd George Recovering

Is Recuperating On Model Farm In Surrey Hills, England

London, England.—Rt. Hon. David Lloyd George, who recently underwent an operation, has sufficiently recovered to go from his London home at Addison Road to his country house at Churst in the Surrey Hills.

On his model farm, among his cows, sheep, gardens and orchard, the former prime minister will recuperate until he is able to visit his old home in Wales.

Lloyd George is the only British political leader not actively participating in the present negotiations dealing with the British financial crisis. Sir Herbert Samuel is serving for him as chief of the Liberal party.

Planes Return To Moncton

Pilots In Air Pageant Give Farewell Festival In Quebec

Quebec.—Having inaugurated the Sea Island Airport in Vancouver, B.C., staged "air shows" in prairie cities and demonstrated flying prowess in Ontario and Quebec, the Trans-Canada Air Pageant made its farewell bow to central Canada with a festival in the old capital on August 19, after which the gallant band of airmen and their machines took off for Moncton, N.B., the starting point of a flight through the maritimes.

Almost 10,000 people viewed the exhibition of stunt flying.

Farm Wages

Offers Made By Saskatchewan Farmers Have Few Takers

Regina, Sask.—Farmers in Saskatchewan are offering from board alone up to board and \$15 monthly in wages for help with very few takers, so far, according to a bulletin issued by provincial department of railways, labor and industries. The bulletin states that publicity being given pending relief works is responsible for this condition, unemployed men preferring to wait for the latter before taking farm work.

To Check Grasshopper Plague

Measures Must Be Taken Now To Prevent Invasion Next Year

Winnipeg, Man.—Farmers of Canada and the United States are being urged to co-operate to check a threatened grasshopper plague in 1932, using man-made devices to destroy the millions of eggs. A rainy season would keep down the pests to normal numbers, it is asserted, but preventive work is advocated.

Two methods have been suggested. One is to plough the land this autumn so deep that eggs now being laid in the ground will not hatch. The other is to cultivate the surface of the ground late in the fall so as to expose and destroy the eggs.

Eggs are now being laid in millions upon millions, experts state. Almost the entire area today from the Rockies to the Great Lakes and from the North Saskatchewan River to the prairies of the southwest has become fertile breeding ground for hoppers and locusts. In some country districts this year visitation of the insects has been so heavy that they have plugged up radiators of motor cars driving through.

Fodder Requirements

Southern Drought Areas Of Saskatchewan To Be Supplied From North

Regina, Sask.—The fodder requirements of the southern drought areas of Saskatchewan probably will be met by the early cutting of grain crops in the north, F. H. Auld, deputy minister of agriculture, stated here.

Already a group of inspectors is in the north inspecting the crops that have been offered to the department for this purpose, Mr. Auld said, and it is believed that the schedule of prices laid down by the department of agriculture for the purchase of feed and fodder will make it possible for northern farmers to cut their crops as hay, instead of harvesting them in the usual way.

Relief Takers Must Work

Unemployed Who Turn Down Jobs Will Receive No Consideration

Ottawa, Ont.—Unemployed men who turn down an offer of work will receive no further consideration from the Provincial or Federal Governments, Senator G. D. Robertson, Minister of Labour, announces.

Senator Robertson said: "If and when men are known definitely to have declined employment, the Provincial and Federal Governments may feel properly their obligations have been discharged. Men who refuse employment, which would provide them with safe surroundings, wholesome food, shelter and a modest compensation will not merit further sympathy or consideration by the state."

ASK GOVERNMENT TO BEAR LARGER SHARE OF RELIEF

Calgary, Alberta.—Requests for alterations in the payment of costs of unemployment relief projects, as affecting the Dominion, Provincial, and Municipal Governments, were made by Alberta representatives at conferences with Prime Minister R. B. Bennett here. Efforts of Calgary's representatives were aimed at having the Provincial and Federal Governments bear the greater part of the costs.

Mayor Davison, of Calgary, asked that the Provincial and Federal Governments bear 75 per cent. of the costs, with the municipalities paying the balance. He pleaded that should be done for the winter of 1931-32 as last year the municipalities paid 50 per cent. and the Provincial and Federal Governments 25 per cent. each.

He estimated that more work would be required to be carried out this winter because of the increased number of unemployed. Calgary is planning a \$50,000 relief program, while Edmonton is considering works costing in excess of \$1,000,000.

It was anticipated by delegates attending the sessions that if the Calgary suggestion of pro-rating costs were adopted, the same policy would have to be put into effect for all other provinces in the Dominion.

Attending the sessions, besides the Prime Minister, Premier Brownlee and Mayor Davison, were Hon. George Hoadley, Provincial Minister of Agriculture and Health; Hon. O. L. McPherson, Provincial Minister of Public Works; Hon. R. G. Reid, Provincial Treasurer; Dr. G. D. Stanley, M.P., East Calgary; A. U. G. Bury, M.P., East Edmonton; Mayor J. M. Douglas, Edmonton; Mayor R. Barrowman, Lethbridge, and the mayors of Medicine Hat, Red Deer, Wetaskiwin, Camrose and Drumheller.

Canada Contributes Practically One-Third Of World's Wheat Shipments

King's Prize Winner

Sgt. Fulton, Crack Shot Of British Empire, Visits Brother In Manitoba

Rapid City, Man.—Winner of this year's king's prize at Bisley, Sgt. A. G. Fulton is striving to win his spurs as a Canadian prairie farmer at the home of his only brother, four miles east of here. Crack shot of the British Empire, the tall, military appearing Fulton is spending his farm vacation aboard a binder, reaping the west's golden harvest.

It is Sgt. Fulton's second visit to Canada from his home in Bisley, England, where he has three times captured the coveted king's prize. His brother, Harold E. Fulton, will have the famous rifleman as guest for two weeks. Sgt. Fulton arrived from Ottawa on Tuesday, August 18, following the Dominion Rifle Association meeting at Connaught Ranges, where he aided the English team in the competition.

AUGUST 30

THE MISSION TO CYPRUS

Golden Text: "I am not ashamed of the gospel; for it is the power of God unto salvation to everyone that believeth."—Romans 1:16.

Lesson: Acts 12:25 to 13:12.

Devotional Reading: Isaiah 42:6-10.

Explanations and Comments

The Return To Antioch From Jerusalem, 12:25.—Barnabas and Paul had been to Jerusalem to bring money from the church at Antioch to the brethren there who were suffering from famine, and on their return John Mark was with them, probably as their attendant.

The Leaders At Antioch, 13:1.—In the flourishing church at Antioch there were numerous prophets and teachers, men of special inspiration. Among these was the energetic and lovable Barnabas of Cyprus. Others included Symeon the Black—doubtless African; Lucius of Cyrene (the province in North Africa lying next to Egypt), who perhaps was one of the Cyprian evangelists who established this church at Antioch (Acts 11:20); Manaen—another form of the Hebrew Menahem (2 Kings 15:14)—who was the "foster-brother" of Herod the Tetrarch (Herod Antipas, son of Herod the Great), and was seemingly a person of some social importance; and, finally, Paul of Tarsus. Apparently the historian meant Paul's place, at the end of the list, to be emphatic, just as was Barnabas' at the beginning of the list. These five leaders of the Antiochian church were evidently Grecian Jews.

The First Foreign Missionaries Chosen and Ordained, 13:2, 3.—While the church, under the leadership of these five men, was carrying on its services of worship, prayer and fasting, an advance movement was initiated under the direction of God. It was probable that the prayer of the church was "awaiting upon God for special guidance on a matter already occupying their thoughts; this matter was surely the question of a forward movement into the Roman Empire." Paul and Barnabas, indeed, may have been thinking of this question, when they had brought with them from Jerusalem John Mark.

"Whenever and wherever men and women are unitedly spiritual, prayerful, self-denying, carefully taught in Christian truth, and waiting upon the Spirit of God for His guidance in a matter of profound importance to His work, and there the scene is laid for a mighty Christian enterprise to have its auspicious beginning or to advance its success."

The First Foreign Missionary Work In Cyprus, 13:4, 5.—Under orders of their Commander-in-Chief—"being sent forth by the Spirit"—Barnabas and Paul set out on their forward movement into the Gentile world. They went down the River Orontes to Seleucia, the seaport of Antioch, sixteen miles distant, and there sailed for the Island of Cyprus in the Mediterranean Sea.

"Historically this is the precise moment at which the foreign missionary enterprise actually began. The fact that we are Christians ourselves, dates back to that obedience of those men in that little ship. They took the little tree of Christianity and transplanted it from the cramping flower-pot of Judaism into the soil of humanity of the whole world. It is an apparently tiny act which, in simple fact, when looked at down the perspective of the centuries, is seen to have changed the history of the world."—Basil Matthews.

The First Battle-Royal With Paganism, 13:6-12.—At Paphos, on the west coast of the island, Paul and Barnabas met the proconsul, Sergius Paulus, a man of understanding, and with him a sorcerer, a Jew named Barjesus, or Elymas, as he was called in Greek. It is interesting that a Roman inscription has been found in which Sergius Paulus is expressly named as holding the office of proconsul. We know that magicians of all kinds were favourably received in Roman society, and it is in no way remarkable that one of these should have gained an influence with the proconsul.

Ottawa, Ont.—Despite rigorous competition and several adverse world factors, Canada contributed practically one-third of the world's wheat shipments during the 12 months ending July 31 last. In a report issued by the Dominion Bureau of Statistics it was stated: "Canadian participation in the world's wheat trade during the past crop year cannot but be regarded with satisfaction."

Faced with stiff competition from Russia and the Argentine in the European market and with the Oriental market captured largely by Australia through depreciated currency, Canada last year exported 228,480,403 bushels of wheat and 6,701,663 barrels of flour. This was the equivalent of 258,637,887 bushels, actually exported, an increase of 72,370,675 bushels over the 1929-30 crop. A decrease was recorded, however, from the last five-year average of 308,853,540 bushels.

Canadian wheat exports were divided almost equally between eastern and western routes. Shipments from the Pacific Coast ports totalled 74,541,806 bushels, while exports through Atlantic gateways, including re-routed wheat from United States, amounted to 74,022,561 bushels. The balance of the wheat movement was through United States ports.

Commenting on world wheat conditions last year, the bureau report listed four outstanding factors. World shipments of wheat and flour aggregated 787,000,000 bushels, compared to 612,000,000 in 1929, 828,000,000 in 1928, and 762,000,000 bushels for the five-year period 1925 to 1929.

The return of Russia as an exporter of wheat was the chief development of the crop year. Another was the withdrawal of United States from the export market. A third factor was the monetary situation developed in the Argentine and Australia from depreciation of currency. The German financial crisis in the closing months of the crop year created an element of uncertainty throughout Europe which was reflected in a reduced volume of international trade.

Wheat Crop Estimate

Wheat Pool States Crop On August 15, Was 51 Per Cent. Of Normal

Winnipeg, Man.—Western Canada's wheat crop is in poorer condition this month compared with July, according to the crop report of the Canadian wheat pool. The pool states that the wheat crop on August 15 was 51 per cent. of normal compared to 52 per cent. on July 29. On August 15, 1930, the report continues, the wheat crop was 68 per cent. of normal.

The report figures that 67 per cent. of the wheat in Manitoba will grade No. one and two northern, 28 per cent. No. three and five per cent. No. four and lower.

Saskatchewan wheat crop remains stationary regarding conditions compared with last month. The pool reports that on August 15, the crop was 42 per cent. of normal, the same figure that prevailed around the end of July. Last year in August it was 66 per cent. of normal. Only 298 points reported sufficient moisture, the remainder of the 453 places heard from being in need of rain, 12 affected by grasshoppers, 14 injured by light frost. Forty points reported complete crop failures. The report continues that it estimates 70 per cent. of the wheat will grade one and two northern, 28 per cent. three northern and four per cent. four and lower.

Alberta displays the rosy picture of the prairie wheat lands, reporting its crop 69 per cent. of normal compared with 70 per cent. a year ago. Grasshoppers affected six districts, light frost struck 23, while 64 points complain of the crop being heavy, green and late. Nine areas were injured by hail, the report states. Only 55 per cent. of the wheat, however, is expected to grade one and two northern. Moisture has been sufficient except in the south.

Shows Substantial Balance

Ottawa, Ont.—Canada had a credit balance of \$166,000,000 from the tourist industry in 1930. That figure represented the difference between the money spent abroad by travelling Canadians and what was distributed in this country by residents of United States, Great Britain and the other nations of the world who toured Canada. In the previous year, Canada had a credit balance from this industry of approximately \$188,000,000.

INVESTMENTS — FARM LANDS
ARROWWOOD, ALBERTA

No place else on the globe will you find as big-hearted, generous and noble people as reside in this old town. They are not much on dress parade, but they have hearts as big and warm as ever pulsed in human breasts.

Here and There

Canada's total wool clip is about 21,000,000 pounds annually, while Canadian mills use at least twice as much as this every year, and Canadian consumption of manufactured woollens equals about four times the clip.

Lake Louise Icelandic poppies, one of the glories of this part of the Canadian Rockies, are in demand in thousands of gardens all over the world. Gardeners at the Chateau are now busy gathering seeds which will later be mailed to guests of the hotel this season.

Representing an increase of 31,000,000 bushels over the same period last year, 199,989,000 bushels of grain were marketed on Canadian Pacific Railway western lines during the twelve-month period since August 1, 1930. This gives the railway company a percentage of 62.3 of all the grain handled in that period.

More than 479,000,000 fish eggs, fry, fingerlings, and yearling fish and a few older fish were distributed last year from the hatchery establishments operated by the Fish Culture Division of the Canadian Department of Fisheries. Largest distribution was from the hatcheries in the Prairie Provinces.

Nipigon River Bungalow Camp Trophy competition is getting some fine entries this season. Recently a trout of seven pounds and one ounce was put in, and shortly afterwards, a six pounds, fifteen-ounce trout was taken. Catches of three to five-pound fish are frequent and one of the best seasons in years is reported from the camp.

J. O. Turcotte, Canadian Exhibition Commissioner, who visited Regina recently in connection with interior decoration in the magnificent new building which will house the World's Grain Exhibition and Conference, states that a start on this work will be made immediately. Decoration will be in grain seeds, no paint of any kind being used.

The Dutch wheat mixing law, effective July 4, enforcing a maximum of 25 per cent. of soft domestic wheat in the making of bread in Holland, may lead to an increase of this percentage which should have the effect of creating a great demand for Canadian hard wheat, says J. C. Macgillivray, Canadian Trade Commissioner at Rotterdam.

"Development of Canada's ocean ports is not merely a Dominion problem but is a matter of interest and concern to the British Empire and the world as well," is the conviction expressed by Sir Alexander Gibb, G.B.E., world famous engineer and authority on port development and operation, who has been called in to superintend the rebuilding of the Saint John port facilities, recently destroyed by fire.

Stay of the King and Queen of Siam at the Banff Springs Hotel during the latter half of August marked the peak of the season at that famous Canadian Rockies resort. His Majesty, under the incognito of Prince Sukhodaya, opened the Highland Festival August 27, and the royal party made a thorough inspection of the mountains in motor excursions, had a couple of fishing trips, saw a rodeo at Kananaskis ranch, and were guests of honor at a Pow-Wow of the Stoney Indians. 767

A device has been invented to record brain action, operated by electrodes placed on the tongue, where they are affected by delicate nerves.

In order to avoid annoying persons living along railroads, a locomotive whistle has been invented that concentrates its sound in a beam projected ahead of a train.

Another paradox is that only by remaining a slave to art may one become its master.

Town & District

Farmers can now borrow money from the banks to buy binder twine.

A number are cutting and a few combines operating in the Arrowwood district.

Miss I. Hesketh of Arrowwood spent last week visiting at the home of Mrs. Haskayne.

Don Swain left last week for Toronto. He went by airplane to Winnipeg and from there he took the train to his destination.

Dan McDonald and Bob Harrison made a flying trip to Banff Saturday night returning early Monday morning. Dan calls the trip a Scotch holiday.

Harvesting in this district is now on in full swing. The farmers are working harder than ever having no money to hire men have to do it themselves.

Last week Fred Bowen had his thumb badly torn, while holding a horse by the bit. He has been in the Gleichen hospital since but expects to go home today.

Mrs. Wm. McConnell is having her home painted. With the new coat of paint and her splendid garden she probably has the prettiest home in town.

There is just a little too much evening around town these evenings. Don't step on it quite so hard boys, you have plenty of time, besides accounts are very costly.

A number of bathers are complaining that their pockets are being robbed of loose change. Sooner or later somebody is going to get caught and then they will be disgraced forever.

Mrs. Wm. Schmidt and two boys returned last week from St. Paul Minn. where she and her children spent several weeks holidaying. They report having had a good time.

Mr. and Mrs. J. Pretence of St. Paul Minn., who are visiting Mr. and Mrs. J. Lester and who went to Seattle a couple of weeks ago accompanied by Mrs. Lester returned to Gleichen on day last week.

Mr. and Mrs. Bert Cathro of Avonlea, Sask., called on Mr. and Mrs. N. A. Riddell of Arrowwood and Mr. and Mrs. Milton Henry of Mossleigh the past week. Mrs. Riddell is an aunt of Mr. Cathro.

If you want to see one of the finest gardens in town you should visit Pet Kelly's home. Mr. Kelly's garden shows that irrigation plus a little work will make a garden the most pleasant thing in the world to look upon.

Sunday afternoon the Queenstown junior baseball club played the Gleichen juniors on the local diamond. Queenstown coming out on the long end of a 15-18 score. In one inning Queenstown made 11 runs. Regardless of the big score the crowd thoroughly enjoyed the game.

Three electric lights have been installed on the Gleichen beach. This is a great improvement and with the bon fire going makes the beach a delightful place to spend a few hours these warm evenings. Bert Boos entertains the bathers and spectators with his mouth organ and accordion while old Dave of Eventide Home accompanies him on the violin. Now for a good song leader to lead in singing.

Mr. Frank Peterson of Irma, Alberta, the official collector of grain and grass samples for exhibition purposes for the government of Alberta is touring parts of the province collecting samples of grain to be used in the Alberta provincial exhibit at the World's Grain Exhibition and Conference, Regina, next year. The province of Alberta has already reserved a space of 160 feet frontage in the World's Grain Exhibition and Conference building for its display.

Many automotive papers both in this country and the United States are recommending the making of slow driving an offense under the law where conditions make it dangerous. So far as some of the provinces of Canada are concerned the police already take action in aggravating cases basing their activity on Legislation now existing. There was a recent case in Mimico Ontario where a driver was fined for proceeding at 17 miles an hour and the Magistrate remarked "You are causing unnecessary trouble for everybody else when you drive at that rate." Evidently the slow poke are in danger.

WHY OUR VALUES

Are in keeping with the times.

1. We buy for spot cash.
2. We have no liabilities or interest to pay.
3. No high salaries or stock dividends to pay.
4. No rents or expensive overhead.
5. We sell for cash and operate our own delivery.

WE HAVE A HIGH GRADE DISTILLATE THIS WEEK AT 14c. PER GALLON, NO GASOLINE REQUIRED FOR STARTING

Ladies and Men's Wear

If we have what you want, we don't believe you want to send away. Our socks and hosierys are the best we can get and priced to compete with anybody. Our new fall suit samples are in, and we would like to have you look them over. Last week for a chance on a watch. Call and get one free. To be drawn for the end of this month.

GLEICHEN,

ALBERTA

Wheat Pooling

Alberta Wheat Pool members may pool any portion of their wheat or may sell any portion at current market prices. The choice is left with the individual.

Alberta Wheat Pool Elevators are operated under a public license and will handle any grain on an open market basis.

If a non-pool grower desires to pool all or any portion of his wheat he will be required to sign a Pool contract. This contract does not compel him to deliver all or any part of his wheat on pool basis. Its purpose is to lay down regulations under which the wheat is to be pooled.

See that your wheat is delivered to an Alberta Pool Elevator.

PREMIER BROWNLEE'S STATEMENT:

"A complete cut-off has been made from previous years' operations and a settlement arranged as between the Pools, the Provincial Governments and the banks. Members of the Pool and farmers generally desiring to do so may, therefore, patronize the Pool elevator facilities with complete assurance that their grain will be dealt with as a separate crop and without in any way being liable for any debts or obligations of past years."

DEBT ADJUSTMENT

Official Announcement to Alberta Farmers

The personnel in connection with the administration of the Debt Adjustment Act will be increased and strengthened to the degree necessary to deal with the enlarged number of cases being referred to the Debt Adjustment Bureau.
The Government is seriously considering the placing of representatives of the Bureau at convenient points throughout the Province, to make it possible for those who desire the services of the Bureau to serve them with the minimum of difficulty. As a preliminary to action by the Bureau those who desire to come under the Act can fill in the form attached hereunder, and forward to the Debt Adjustment Bureau, Calgary, or the Debt Adjustment Bureau, Edmonton, when the office will immediately get in touch with them.

To the Debt Adjustment Bureau, Calgary or Edmonton.

I am having difficulties with some of my creditors and may require the assistance of the Alberta Debt Adjustment Bureau. Kindly send me the necessary forms to fill out.

Name of Applicant

Post Office Address

(NOTE: Communication from Township 34 and points south should be addressed to Calgary, and those from points north of Township 34 Edmonton.)

BANK CREDIT FOR BINDER TWINE

Premier Brownlee when in Ottawa discussed with the Dominion Government and the Banks the question of credit being made available to farmers where necessary for the purpose of purchasing binder twine. Arising out of the conference at Ottawa, the banks having superintendents in Alberta discussed with Premier Brownlee on August 11th the question of credits for this purpose, and as a result the GOVERNMENT WOULD ADVISE ALL FARMERS REQUIRING BINDER TWINE TO MAKE APPLICATION TO THEIR BANKS FOR CREDIT FOR THAT PURPOSE, EVEN IF AN UNSUCCESSFUL APPLICATION HAS ALREADY BEEN MADE.

It is important that applications be made immediately.
